

**James Kawasaki**

4 December 2016

Ok everyone. I have no pictures or videos. So I truly hope you read this and let it sink in. I have been heavily studying everything and everyone for the past few years. I am a very strong Christian and believe Christianity is all about having a personal relationship with God and Jesus. He is in our hearts and all around us. God has revealed to me all of the world's secrets. And I am going to share them with you for your sake and your families. Many will call me crazy and I don't care. So here it goes..... The world as we know it has been taken over by the devil and his demons. It is completely run by a satanic cult known as the New World Order, Illuminati or other names. It makes no difference what you call it. It is all pure evil. I am not saying that God has no power over this. He is watching and waiting on us to open our eyes and seek his face and ask for forgiveness. If we can not all come together and do this we will surely face the most scary apocalyptic events ever imagined. The mainstream churches especially catholics are part of the problem. They are not preaching the whole gospel. They are editing it to fit their needs. They are not talking about revelations. They are not putting the fear of God into people. They are not talking about sin and homosexuality. They are commercialized and just putting on a show for entertainment. They are creating luke warm christians complacent with evil and sin. We must be on fire for the Lord and proclaim his name. Our government is completely infiltrated with demons and demon-human hybrids. And so is much of the police force across our nation. The bible speaks of fallen angels and Nephilim. They are here and have been. These beings are created by satan and our own government through genetic engineering. There is such things as aliens. But we need to know that they are all demons. They are not here to help us. They are here to deceive us and confuse us. Our government has been aware of these creatures for nearly a hundred years. They have been working with them, trading human beings and animals in exchange for technology. Just think about all of the reported cases of alien abductions. Almost never happens to a true Christian. Because someone filled with the holy spirit is protected by the blood of Jesus and is not vulnerable to these demons. These demons have been studying our reproductive systems and use this knowledge to create hybrids and clones. This is a spiritual war we are in. This is the final battle between good and evil. These beings are all around us lying to us. They are virtually indistinguishable from humans. Some of us can see them for what they are and are able to

call them out. "Their" (government and satan) doing everything they can to destroy Christianity, the family unit, promote homosexuality, create division amongst races, and destroy the constitution. They have created countless false flags including 9/11, Sandyhook shooting, Pulse night club, and most recently the OSU attack. These are all created to promote fear and aimed at getting our guns. If they take away our guns we have no way to defend ourselves against tyranny. Freedom of speech is also being targeted. Political correctness has destroyed our once great nation. Protesters are being paid to start riots everywhere. Our government has been bringing in terrorists and providing housing and weapons and even have muslim training camps all over preparing to slaughter us. The mainstream media is completely corrupt and are part of the satanic order along with most of Hollywood and the music industry. We are being brainwashed by TV and music. We are being physically and spiritually attacked from all angles. We are being poisoned with fluoride, lead, arsenic and other chemicals in our water. Most bottled water is also very acidic promoting cancer growth. We are being poisoned by vaccinations causing diseases and other disorders. Big pharmaceutical company are also part of these evil groups and big banks. Big Pharm wants every single person on some kind of drugs. Claiming you have something wrong with you so you will take a pill everyday making them rich. They don't want you to rely on God for anything. They want to sterilize you to control population. They don't want you smoking weed which is all natural and has many medicinal purposes because they can't profit from that. Our government is a huge part of the illegal drug industry and has been for years and years. Most of our fruits and vegetables are created in a lab, completely unnatural and unhealthy (GMO). Our meat is highly drugged and filled with steroids and also genetically modified. We are being exposed to high levels of radiation and electromagnetic waves from cell phone towers, wifi hotspots, microwaves, Bluetooth devices and our phones themselves, and virtually all wireless technology. These electronics devices can effect mood, provoke anger, depression, cause headaches and even make you physically sick. Chemtrails are being sprayed everywhere, we breathe them in and leak into crops and water supply, also helps alter the atmosphere helping the control of weather, also creates a "screen" allowing the projection of false images. Artificial sweeteners and preservatives are unnatural and poisonous. All of these things I mentioned are harmful and lead to diseases, cancer, and infertility. The government, Islam, and UN are preparing for martial law. This is why there are thousands of pictures and videos of all of the so called military training all over the US. We are being watched constantly by black helicopters, especially targeted are the ones who speak out like me. They are also capable of activating a large EMP (electromagnet pulse) which would destroy most electronics eliminating communication, shutting down power

grid, and no running water. They will blame it on space weather (solar flares from the sun). Obama has already created an executive order explaining this. If we are hit with an EMP it would be devastating to everyone. Certainly evoking martial law. Our weather is controlled by HAARP. Creating droughts and dry areas where fires can be deliberately set. Also can cause severe rain in areas causing flooding. CERN has opened the gates of hell releasing evil upon the Earth. They perform satanic rituals to help their "machine" work. Our history has been altered (referred to as the Mandela effect), designed to create doubt and confusion over what we know to be true. There are hundreds of deep underground military bases (dumbs) all over the world where the global elite plan on hiding during the coming apocalypse. These bases are all connected by tunnels with high speed mag-lev trains. "They" have the ability to project 3D images in the sky, possibly faking an alien invasion or the second coming of Christ. There are hundreds of FEMA camps all over the US. They will convince the blind to go to seeking refuge. Claiming you will be safe and provided basic needs. But in reality you will be slave labor. If you do not comply you will be killed. Any person can also be detained indefinitely without charges or trial if you are suspected of being a threat to their evil plans. Anyone who is Christian, patriot, veteran, supports the constitution, pro life, believes 9/11 inside job, basically any good God loving American is considered a terrorist and can be picked up and made to disappear at any time. Obama also signed executive order that during peacetime or wartime EVERYTHING you own can be taken for "use of the country", including: vehicles, food, water, guns, ammo, medical supplies, and even your home. All utilities, natural resources, roads and modes of transportation will be under government control. American and the UN are provoking Russia to war because Russia wants to remain a sovereign nation, leave the UN and just be left alone. Russia is not the enemy. America and the UN is the enemy. Clinton and Obama are top players in the NWO. Even if Trump gets in this will not stop. Only by the grace of God will we be spared from all of this death and destruction. The bible explains all that is a happening. Countless prophecies are being fulfilled. Earthquakes in diverse places, wars and rumors of wars, birds of the air dying, fish of the sea dying, famines, pestilence, droughts, rampant sin and homosexuality, falling away from God, worshipping false idols, third temple being built in Jerusalem, and the list goes on and the on. We are in the last days. The moral of all of this is almost everything around you is a lie and propaganda. Seek Jesus Christ. Use discernment and spread this message. The world needs to wake up. God bless you all. Please copy and share.
